

Career Advancement

Where Leaders Get *THEIR START*

To truly have a lasting impact on our polity, AHS assists our chapter officers with the most critical of functions: career advancement. The Kenneth C. Griffin Center for Career Advancement serves as the resource for our student leaders, acting as their bridge into the professional world. By building relationships with likeminded institutions, offices, and people, AHS has become the pipeline for trusted and vetted talent in our growing network.

Our office aids our students by:

- Curating job and internships lists with our weekly Job Bulletin newsletter
- Connecting you with employers
- Networking opportunities and introductions
- Providing individual career counseling
- Offering resume and cover letter support
