

Campus Chapters

Where Leaders Get **Their Start**

Our student-led chapters are the foundation on which we build our programming. Hosting some of our nation's most distinguished foreign policy scholars and practitioners, these chapters bring alternative points of view to their college campuses.

Whether engaging local professors and thought leaders on critical issues in foreign policy, national security, economic statecraft, or human rights; convening student group discussions on critical U.S. foreign policy issues; or organizing reading series on influential books in the history of American statecraft, they build a community where budding professionals can acquire the knowledge and skills necessary for success in their future careers.
